schedule publication deadlines. After the initial round of reservation allocations, requests will also be accepted by phone (530-426-3632) if the caller provides valid credit card information. Other information needed to secure a reservation includes cognizant person (organization scheduler or trip leader), address, and phone number; hut(s) and date(s) desired -- list the date of the evening for an overnight trip; party size; and type of group (see next paragraph).

Sierra Club groups receive first priority in reservations. Groups which have participated in work parties receive priority over those which have not. Each party should include at least one person familiar with the location of the cabin (having visited it before) who is willing to act as navigator. Responsibility for the safety of the group lies with the trip leader.

**Cancellations:** A full or partial refund of any deposit can be arranged if space is released at least one month before the reservation date. If weather forces cancellation (for example, highways were closed), a refund may also be possible; a *forecast* of bad weather does not, by itself, constitute grounds for a refund, however. Make claims for refunds immediately to the Manager at Clair Tappaan Lodge (see below).

**Summer Operations:** Summer procedures for booking and using the huts are the same as for winter except that Bradley is unavailable during May through mid-October.

For more information on reservations, availability, and similar matters contact the Hut Reservations Coordinator at Clair Tappaan Lodge, P.O.
